Address application to: Christoph Treude

Job description: The CHISEL group is looking for a research assistant to develop research prototypes using Java and web technologies. We are looking for someone with strong Java and web development experience. The applicant should be familiar with working on large software projects. It is a highly technical position but an interesting one.

Skills (required and/or preferred): A senior undergraduate who has very good grades and Java and web development experience would be suitable. Strong communication skills are also needed as they collaborate with other researchers in the US

and across Canada.

Special requirements: Applicants should be in CSc or Software Engineering and they are expected to apply for NSERC USRA
www.nserc-crsng.gc.ca

Applicants must be eligible for a NSERC Undergraduate Student Research Award.

To be eligible, you must:

- be a Canadian citizen or permanent resident of Canada;
- be registered (at the time you apply) in a bachelor's degree program in the natural sciences or engineering at an eligible university; and
- have obtained, over the previous years of study, a cumulative average of at least second class (a grade of "B" or "B-") as defined by the University of Victoria.

For more information on NSERC, go to
www.nserc-crsng.gc.ca
